

1:1 Clinical Services

Our 1:1 Clinical Services offer personalized support, using evidence-based practices to help children achieve developmental goals and build key skills.

FEATURES

Eligibility:
0-18 years old

Key Features:

- Personalized intervention plans addressing communication, social, and daily living skills.
- Structured, goal-oriented sessions designed to support meaningful progress.
- Ongoing supervision and guidance from experienced clinicians.
- Regular parent meetings to review progress and collaborate on strategies.
- Cost for the program includes all clinical supervision costs (direct and indirect) and direct and indirect costs for the Behaviour Therapist.

Skill Areas Addressed:

- Functional communication (e.g., requesting, responding, communicating needs).
- Social interaction (e.g., turn-taking, sharing, initiating play, transitioning).
- Daily living skills (e.g., dressing, eating, toileting).
- Emotional regulation (accepting delay and denial, waiting) and self-help skills
